Lively, Penelope. How It All Began

If you're looking for a 2012 well-written literary read that is a) not depressing b) easy to read and c) thoroughly enjoyable, look no further. If you have never picked up a book by Penelope Lively before, this is a good place to start. And if you have--well, you won't be disappointed. This book is about how people's lives influence one another...the changes that occur after a woman is mugged of her purse and injured. Imagine a rippling effect, if you will. It's a good book for anyone who thinks that his or her actions don't matter--because this book proves that they do! Actually, it's a great book for everyone. Penelope Lively is a spectacular British writer who has many years of writing under her belt, and she just keeps getting better.
