## Ba, Gabriel and Moon, Fabio. Daytripper

*Daytripper* is a dreamy and surreal graphic novel that follows the life of one man, Brás de Olivias Dominguez. Each chapter features an important period in Brás' life in Brazil, and each story ends the same way: with his death. A story about all the possibilities realized and lost in one person's life, *Daytripper* is a philosophical story about choices, destiny, and chance. The artwork is gorgeous.
