John Green Readalikes

Young adult author John Green has won the acclaim of teens and adults alike with his body of work. His realistic, often intense stories explore big issues and small, and feature introspective characters who examine and reexamine their own lives and relationships and come to new understandings over the course of the story. Characterized by witty dialogue; strong use of humor; and flawed, quirky, but relatable characters, Green's novels simultaneously provoke laughter and tears in his readers.
