Just a Thought -- Monster Mash

It all started with *Pride and Prejudice and Zombies*. Suddenly zombies, werewolves, vampires, and beasts of all descriptions were invading our classic literature! These mash-ups, as they're termed, take many forms. *Pride and Prejudice and Zombies* simply wove zombies into Jane Austen's original text, with hilarious and oddly seamless results. Other mash-ups include a higher percentage of newly-created text. Still others, for a twist on the genre, take a real historical figure and add creatures to his or her real history. Whichever type, the books are fascinating in their way, often funny, and always engaging.
