Slog's Dad

Author:

David Almond

Illustrator:

Dave McKean

Reading Level: Grades 6 - 8

When Slog's father dies following a grueling illness involving many amputations, the boy becomes convinced that his dad has returned from the dead. Slog's friend, who tells us this story, is sympathetic to Slog but doubtful. This unconventional story, told partly with mixed-media illustrations, is simultaneously dark but hopeful, as it explores the pain of loss.
