Forward

The Author: Jesse Lowe Smith was born in Macon, Illinois, on 23 November 1869, to the Rev. Leonard Francis Smith (1838-1874) and Bridget Ann Lowe Smith (1842-1941). His father’s diary for that date: “At 5:30 wife bore me another child, a boy weighing 10 lbs when dressed. Dr. Tobey was the physician…” Jesse’s father, Leonard Francis Smith, son of Jesse Smith and his second wife, Sophia Lake Spencer, had married Bridget Ann Lowe, daughter of William Fletcher Lowe and Elsea Aquila, on 10 September 1863. They had six children, Elsie (1864), Kittie Grace (1865-1932), Clarence Bruner (1867-1943), Jesse Lowe, Edith (1873-195?), and Lennie Francis (1874-1976).

Jesse Lowe Smith attended grade school in Macon, Illinois. With a passion for books and nature study, Jesse saw his life as a teacher. He attended the Academy in Benton Harbor, Michigan from 1884-1887, living with his Great Aunt Margaret Crooks. In 1888 he returned to Macon where he taught for three years. Teaching and studying independently as he taught, Jesse, at age 21, qualified for entrance to De Pauw University in September 1891. He completed his education at the University of Chicago from 1892 to 1894. After one year at De Pauw, he returned for one term at Macon, and then, with his mother and sisters, went to Lexington, Illinois where he taught for four years from 1893-1897, followed by five years in Park Ridge, Illinois. In May 1902, Jesse came to Highland Park as principal of the Elm Place School. He was Superintendent of Schools for District 107 at the time of his death on 21 April 1934.

His diaries reveal Jesse Lowe Smith to be a man of many interests and great influence. He was widely known and respected throughout Illinois as an innovative educator and avid naturalist and in Highland Park as an educational, cultural and civic leader. He inspired the Elm Place School teachers to higher ideals of education and the students to a deeper understanding and appreciation for the world around them. He left a lasting impression on all who knew him in life and continues to inspire many who make his acquaintance through his diaries and his legacy in Highland Park.

Identifications: In his diaries, Jesse frequently refers to members of his family. During his years in Highland Park, Jesse provided a home from his mother and sister, Kittie. They are often referred to in the diaries as M. and K. His brother Clarence Bruner is referred to as Clarence or Clarence B., and Clarence’s two sons, Leonard and Clarence, Jr. (Bruner or Junior) are also mentioned. Jesse’s sister Edith married Clarence Danforth (Danforth or Clarence D. in the diaries). His sister Lennie married Arthur Enders, and their children, Robert and Ruth Anne, are mentioned in the diaries.

Transcriber’s Notes: Every attempt has been made to provide an accurate transcription of the diary entries with respect to spelling, grammar, and punctuation; therefore incorrect or inconsistent (Mr. Smith spelled the same word in different ways at different times) usage is retained without the use of (sic). When words were added above the line, they have been inserted into the text. When words were inadvertently repeated, the second occurrence of the word has been dropped. Margin notes are indicated as such and are placed following the text that they appeared adjacent to in the diary. When words were illegible, brackets have been supplied enclosing a blank space [   ]. Words that could not be deciphered with certainty have been placed in square brackets followed by a question mark [like this?]. Transcriber’s notes are indicated by brackets [like this – ed.]. Clippings that were pasted into the diary are described in a transcriber’s note, but are not always transcribed.

2 Diaries 1859-1874 of The Reverend Leonard Smith, Circuit Rider by Blanche Beal Lowe.
[In this diary, Mr. Smith seems to indicate by placing them in parentheses, words that he wrote in error. These instances appear in entries on February 5 and 23, March 11, April 30, June 24, October 18, and November 1. –ed.]

Snow falling at daybreak & continued until about 8:00 A.M. Cleared & cooler. Fine cold afternoon & evening.
To church.
After dinner a nap; then a splendid tramp over into the Skokie. Made a bundle of cuttings of red-osier dogwood, elderberry, waahoo, & bitter sweet. Home after dark.
Venus & Jupiter almost in conjunction. Called up some school children to make sure they saw the phenomenon

Monday, February 14

Fine wintry day. Thawed some.
Busy. At morning exercises showed some of my Lincoln slides.
Spent considerable time with hygrometer tests.
Gave Lincoln talk this evening to general public – a small audience. Miss Whitten sang two songs that were favorites of Pres. Lincoln.

Bright. Melted very rapidly.
Mr Metzel visited for a while. Then Mrs Pattee came up from Evanston to confer with me about Audubon material for the Arbor & Bird Day Annual.
Hardwood cuttings made by 5A’s & 5B’s and stored in wet sand. - - - - red-osier dogwood, bitter sweet, waahoo, elderberry.
Helped 6B’s to form a science club. Conferred with Miss Krueger about the night school work at the H-S – the work especially for foreigners.
At my desk at school this evening.

Thursday, February 17

Mild. Muddy.
Some class work & plant house work.
Some of us went down to H.P. Club House – Ossoli program – to hear Dr Sadler talk on Faith & Fear in Relation to Health. A wholesome talk with a Chautauqua platform flavor.

This evening I went to the last session of the H.S. evening school. The members of the foreigners’ class gave musical numbers. Bonetti, Stoltz, & Schubert played beautifully on the violin. The kindly feeling between the members of the class & their teachers was delightful. Miss Davis from my school taught 38 evenings & Misses Sands, Jones & Schermerhorn each 32 evenings

STATED MEETING, FRIDAY EVENING
MARCH 10, 1916
FULLERTON HALL, ART INSTITUTE
Illustrated Lecture by Archdeacon Stuck,
of Alaska

TITLE: “THE ASCENT OF MT. MCKINLEY (DENALI)”
The highest mountain in North America,
20,500 feet above the sea.

On June 7, 1913, Archdeacon Stuck, and his party of two white men
and an Indian lad, reached the summit of this great Alaskan mountain. Many
attempts had previously been made to conquer the almost insuperable difficulties
it presented, but one after another they were defeated.
The story is unequaled in the record of exploration. The account of the
climb, four miles into the air over the ice of Denali, is as thrilling as any story of
Polar discovery. From Archdeacon Stuck’s photographs beautiful colored lantern
slides have been prepared, showing every phase of the three months’ traveling
and climbing. – ed.]

Fine day. Warm.

Went with Miss Jones’ 3B’s to country in a Moraine bus. Visited a brick factory & two farms. Saw one farmer planting corn. A fine trip. Some wild crab trees in wide-open blossom, but most in buds - - a beautiful spectacle.

This afternoon went to the funeral of Wesley Yowell. Some of his classmates went & I sat with them.

At four several of us teachers from H-S., Lincoln & Elm P. met in Sheahen’s woods to plan for the pageant.

At school this evening. Had conf. with Scout Masters Chandler & Spencer. Stopped in at pool bowling alley at 10:30 to see what boys they are using.

[John Charles Duffy (Dec. 18, 1870-May 31, 1916), was one of ten children of Bridget and James Duffy. His father was among the earliest pioneers in the area, arriving in 1844. When James died in 1888, he left his sons to look after themselves and their widowed mother. John learned telegraphy and worked for the Chicago & Northwestern Railway as telegraph operator and station agent for 15 years before taking a job in 1900 with the Erskine Bank where he was a cashier at the time of his death. John’s obituary (Highland Park Press, June 1, 1916, page 1) includes a quote from his employer, Mr. D.M. Erskine, “Mr Duffy was no ordinary man. Everyone knew him and everyone liked him….I can truly say that our whole community mourns his departure, each one feeling that it’s a personal loss.” John also served as both township and city collector and at the time of his death was treasurer for the local Relief and Aid Society. He left his mother; eight brothers, James, Thomas, Frank, William, Joseph, Edward, George, and Arthur, his sister Julia, wife Agnes, and son James Emmett who would graduate with the high school class of June 15, 1916. – ed.]

SAVE THE DUNES

The above named societies, co-operating with many prominent citizens of Indiana, Michigan, and Illinois, will hold a joint meeting at 2 P.M., on Sunday, July 16, 1916, adjacent to the Beach House, near Tremont, Indiana.]
All persons interested in preserving the Dunes as a public park are urged to attend. A great emergency has arisen which calls for action. The mayors of many cities, Professor E.L. Coulter, Mr. Jens Jensen, and it is hoped, Mr. George Ade, will speak, and an organization will be perfected. Take an early train, and aid in explaining the Dunes to strangers. Bring lunch. Good roads for automobiles. Time table follows:

At Omaha.

Violently affected in the night by something eaten in the diner – probably potato salad. Bowels ran off, then heavy vomiting spell. Out of my berth a couple of hours. Slept towards morning & much better. Hardly strong enough to carry my suitcase up the station stairs at Omaha

Phoned Aunt Eva to get directions as to reaching her. Farnum car to 16th. Park West car to Pacific & 32nd. – Then west one & south one.

Were waiting breakfast. I ate a little toast. Took it easy all day & ate sparingly.

Admired Aunt’s cosy and convenient home.

We went to Ringling’s circus this evening & had lots of fun out of the experience

**STATED MEETING**
December 8, 1916, at 8:15 P.M.

Lecture by Mr. Edgar J. Banks
Title: “A THOUSAND MILES DOWN THE TIGRIS RIVER”

The story of the Orient never loses its fascination, and when told by one who has personally investigated its ruins and its history — past and present — it becomes much more interesting than when only gathered from books.

Dr. Banks’ experiences as American Consul to Bagdad, and as one of the faculty of Robert College, Constantinople, his knowledge of the languages and customs of the peoples of the far East, have given him unusual opportunities to gather an immense amount of material in connection with the life and history of the dwellers along the Tigris, and of their ancient environment.

The lecture will be profusely illustrated with colored slides, made chiefly from photographs taken by Dr. Banks. — ed.]

The last of another year

A beautiful wintry day. Moderated somewhat and after nightfall a slight flurry of snow.

Felt rather “punk” – a sore gland in my neck, etc. Went out only to see how things are at school. -
- - The soleil d’Or in full bloom in the plant house. - - - Two more guinea pigs had arrived - - -

Read Atlantic Mo. articles - - - Late this evening followed my annual custom of reading Tennyson’s “Ring
out, wild bells, to the wild sky”, etc.
