Jesse Lowe Smith
Diary
1920

Transcribed by
Julia A. Johnas
Forward

The Author: Jesse Lowe Smith was born in Macon, Illinois, on 23 November 1869, to the Rev. Leonard Francis Smith (1838-1874) and Bridget Ann Lowe Smith (1842-1941). His father’s diary for that date: “At 5:30 wife bore me another child, a boy weighing 10 lbs when dressed. Dr. Tobey was the physician…” Jesse’s father, Leonard Francis Smith, son of Jesse Smith and his second wife, Sophia Lake Spencer, had married Bridget Ann Lowe, daughter of William Fletcher Lowe and Elsea Aquila, on 10 September 1863. They had six children, Elsie (1864), Kittie Grace (1865-1932), Clarence Bruner (1867-1943), Jesse Lowe, Edith (1873-195?), and Lennie Francis (1874-1976).

Jesse Lowe Smith attended grade school in Macon, Illinois. With a passion for books and nature study, Jesse saw his life as a teacher. He attended the Academy in Benton Harbor, Michigan from 1884-1887, living with his Great Aunt Margaret Crooks. In 1888 he returned to Macon where he taught for three years. Teaching and studying independently as he taught, Jesse, at age 21, qualified for entrance to De Pauw University in September 1891. He completed his education at the University of Chicago from 1892 to 1894. After one year at De Pauw, he returned for one term at Macon, and then, with his mother and sister, went to Lexington, Illinois where he taught for four years from 1893-1897, followed by five years in Park Ridge, Illinois. In May 1902, Jesse came to Highland Park as principal of the Elm Place School. He was Superintendent of Schools for District 107 at the time of his death on 21 April 1934.

His diaries reveal Jesse Lowe Smith to be a man of many interests and great influence. He was widely known and respected throughout Illinois as an innovative educator and avid naturalist and in Highland Park as an educational, cultural and civic leader. He inspired the Elm Place School teachers to higher ideals of education and the students to a deeper understanding and appreciation for the world around them. He left a lasting impression on all who knew him in life and continues to inspire many who make his acquaintance through his diaries and his legacy in Highland Park.

Identifications: In his diaries, Jesse frequently refers to members of his family. During his years in Highland Park, Jesse provided a home from his mother and sister, Kittie. They are often referred to in the diaries as M. and K. His brother Clarence Bruner is referred to as Clarence or Clarence B., and Clarence’s two sons, Leonard and Clarence, Jr. (Bruner or Junior) are also mentioned. Jesse’s sister Edith married Clarence Danforth (Danforth or Clarence D. in the diaries). His sister Lennie married Arthur Enders, and their children, Robert and Ruth Anne, are mentioned in the diaries.

Transcriber’s Notes: Every attempt has been made to provide an accurate transcription of the diary entries with respect to spelling, grammar, and punctuation; therefore incorrect or inconsistent (Mr. Smith spelled the same word in different ways at different times) usage is retained without the use of (sic). When words were added above the line, they have been inserted into the text. When words were inadvertently repeated, the second occurrence of the word has been dropped. Margin notes are indicated as such and are placed following the text that they appeared adjacent to in the diary. When words were illegible, brackets have been supplied enclosing a blank space [   ]. Words that could not be deciphered with certainty have been placed in square brackets followed by a question mark [like this?]. Transcriber’s notes are indicated by brackets [like this – ed.]. Clippings that were pasted into the diary are described in a transcriber’s note, but are not always transcribed.

A little cooler. A gentle rain in the afternoon. Not much – but very acceptable.
Read & slept much of day.
New daylight schedule in effect today.

Monday, June 14
Picnic – Flag Day.
A wonderful rain in the night, copious. A few drops during the day. Cooler. Fine breezes as day wore on. Thunderstorm and rain late in evening
Flag Day. Col. Blanchard loaned us a band of 15 or 20 pieces and our exercises were impressive - - Picnic followed. A great success. Used up 45 gallons of ice cream. Athletics much enjoyed. - - Miss Esther White’s pupils gave a fine show at 11:00. Lunch followed by Merch. of V. by Miss Guiney’s pupils. – Then a magician gave two programs. - - During afternoon 20 of our pupils were taken to Ft Sheridan to reproduce flag day ceremony. Exhibit of work on all day & b’ld’g open this evening.

Tuesday, June 15
Rained more in the night. Turned off hot. Lake breeze after 6:00 P.M. helped out.
Children visited exhibit of different rooms this A M – then it was taken down.
Began giving away asters, zinnias, & calendulas.
Movie man given permission to catch our pupils coming out of bldg & starting off on wheels. He also took me with our Jim Crow feeding.
Board meeting this evening. Plans for summer made.

Wednesday, June 16
Rather hot in the morning. Stinging in the afternoon followed by a thunderstorm & downpour at 6:00. Then about 8:00 strong cold wind came up & chilled everything down. Continuing in night, trees were twisted & branches torn away. An autumn storm.
Gen’l ex & honorable mentions. Very pleasant, especially 8A – 2’s “take-off” on 8A – 1’s in a “prophetic court”.
Worked with teachers in afternoon.
Fine “commencement” program this evening. Mr. Owen’s train delayed & exercises started. Mr. Eugene Wilson, patron, talked to pupils very acceptable for ten minutes. Then Mr Owen gave zipping address.
Photographed teaching staff this afternoon.

Rained in the night – or, rather, towards morning, and there was a series of downpours after breakfast
Found Clarence and Junior here when I came in last night.
Spent the day at home. We men folks walked up to the schoolhouse a while this A.M. & late this afternoon to my “farm”
The first Golden Bantam corn has been harvested (last week).
Junior went to concert at Ravinia this evening.
Jim Crow has been missing a week, now!!

Monday, August 30
Fine day.
Clarence & J. shopped in the city. I worked at school much of the day. - - Worked over some specimens sent me by J.W. Griesemer – 2 weeks ago! - - This evening all of us but K. went to concert. Fine. Mrs Hageman’s singing very fine & the musical setting very expressive & charming.
Junior had been practicing a piano version of Finlandia & to our delight the number was on the program & impressively rendered.

Met Mr & Mrs Mieth there - - whom I had spent a delightful evening with at the Sun Camp in G.P. Also Billie Folsom, et. al.

[Pasted to this page is a newspaper clipping of the Ravinia program. Renee Thornton, wife of Ravinia conductor Richard Hageman, was the featured soloist in performances of the aria of Micaela from Carmen, and three songs with music composed by her husband; Happiness, Do Not Go My Love, and At the Well. – ed.]

**Tuesday, August 31**

Lecture by
MR. HENRY J. PATTEN
Title: “The Devastated Regions of France.”
Mr. Patten has long been familiar with France and its people by reason of his frequent visits to Continental Europe prior to the Great War. Early this year he planned to visit France as soon as it was possible to obtain passports, which he was able to do in the spring.

Mr. Patten’s experiences and observations will be of unusual interest to members of the Society, not only because of his long and intimate knowledge of France and its conditions before the war, but also on account of his active interest in the Geographic Society and its objects, which have brought him into close touch with its membership, during his terms as President. – ed.]

Saturday, October 9

PROFESSOR ZONIA BABER

Title: “Conditions in Mexico, a Geographic and Political Interpretation.”

Members of the Society will be greatly interested in hearing Miss Baber tell of conditions in Mexico, where she recently spent a part of a vacation period. Mexico will always be of vital interest to us as a sister nation, and her problems should be better understood before we pass judgment on her internal troubles.

Miss Baber's wide experience as a geographer and her strong sympathy for all peoples in their struggles for better conditions will without doubt enable her to present much data that will be entirely new, and should throw light on many of the little-understood problems of our southern neighbor. – ed.]

Saturday, October 23
Dune trip.

With Misses Guiney, White (Clara), Copeland, Payne, Chester, & Dennison, & Mrs Grundy. Got off at Tremont and at 5:30 had an auto pick us up at bridge over Coffee Creek and take us back to Tremont for the 5:48 trolley.

A fine day. A little warm but clouds screened off the sun. Ate lunch near “Duneside Cottage,” where Miss Munson and her sister spend weekends Miss M. & Miss Byrne and Mr. Geer there at this time. We all climbed Mt Tom & wandered about the rest of the afternoon.
