## Forward

**The Author:** Jesse Lowe Smith was born in Macon, Illinois, on 23 November 1869, to the Rev. Leonard Francis Smith (1838-1874) and Bridget Ann Lowe Smith (1842-1941). His father's diary for that date: "At 5:30 wife bore me another child, a boy weighing 10 lbs when dressed. Dr. Tobey was the physician..." Jesse's father, Leonard Francis Smith, son of Jesse Smith and his second wife, Sophia Lake Spencer, had married Bridget Ann Lowe, daughter of William Fletcher Lowe and Elsea Aquila, on 10 September 1863. They had six children, Elsie (1864), Kittie Grace (1865-1932), Clarence Bruner (1867-1943), Jesse Lowe, Edith (1873-195?), and Lennie Francis (1874-1976).

Jesse Lowe Smith attended grade school in Macon, Illinois. With a passion for books and nature study, Jesse saw his life as a teacher. He attended the Academy in Benton Harbor, Michigan from 1884-1887, living with his Great Aunt Margaret Crooks. In 1888 he returned to Macon where he taught for three years. Teaching and studying independently as he taught, Jesse, at age 21, qualified for entrance to De Pauw University in September 1891. He completed his education at the University of Chicago from 1892 to 1894.<sup>1</sup> After one year at De Pauw, he returned for one term at Macon, and then, with his mother and sisters, went to Lexington, Illinois where he taught for four years from 1893-1897, followed by five years in Park Ridge, Illinois. In May 1902, Jesse came to Highland Park as principal of the Elm Place School. He was Superintendent of Schools for District 107 at the time of his death on 21 April 1934.<sup>2</sup>

His diaries reveal Jesse Lowe Smith to be a man of many interests and great influence. He was widely known and respected throughout Illinois as an innovative educator and avid naturalist and in Highland Park as an educational, cultural and civic leader. He inspired the Elm Place School teachers to higher ideals of education and the students to a deeper understanding and appreciation for the world around them. He left a lasting impression on all who knew him in life and continues to inspire many who make his acquaintance through his diaries and his legacy in Highland Park.

**Identifications:** In his diaries, Jesse frequently refers to members of his family. During his years in Highland Park, Jesse provided a home for his mother and his sister Kittie. They are often referred to in the diaries as M. and K. His brother Clarence Bruner is referred to as Clarence or Clarence B., and Clarence's two sons, Leonard and Clarence, Jr. (Bruner or Junior) are also mentioned. Jesse's sister Edith married Clarence Danforth (Dan, Danforth or Clarence D. in the diaries). His sister Lennie married Arthur Enders, and their children, Robert and Ruth Anne, are mentioned in the diaries.

**Transcriber's Notes:** Every attempt has been made to provide an accurate transcription of the diary entries with respect to spelling, grammar, and punctuation; therefore incorrect or inconsistent (Mr. Smith spelled the same word in different ways at different times) usage is retained without the use of (sic). When words were added above the line, they have been inserted into the text. When words were inadvertently repeated, the second occurrence of the word has been dropped. Margin notes are indicated as such and are placed following the text that they appeared adjacent to in the diary. When words were illegible, brackets have been supplied enclosing a blank space [ ]. Words that could not be deciphered with certainty have been placed in brackets followed by a question mark [like this?]. Transcriber's notes are indicated by brackets [like this – ed.]. Clippings that were pasted into the diary are described in a transcriber's note, but are not always transcribed.

Mr. Jesse Smith, Superintendent,  
Highland Park Schools  
Highland Park, Illinois.

My dear Mr. Smith:

The pupils at Nichols School who heard your Nature talk last year are so enthusiastic about your slides and your interpretations of outdoor life that those of us who are newcomers have become equally anxious that you may find time to come to talk to us again.

We are especially eager to have you come on Friday, January 31, to address the eighth grade assembly which convenes from 10:45 to 11:30 a.m. Any subject you choose will be interesting to us, but we hope it will be one which you will illustrate with your slides.

We shall hope that your schedule at the end of January will permit you to grant us this favor.

Yours very truly,  
*Grace K. Weber*

Miss Grace K. Weber,  
The Nichols School, Evanston, Ill.

My dear Miss Weber :

With reference to the possibility of my coming to the Nichols School on the 31st I am obliged to offer a sort of alibi. The date is at the end of our semester and it may not be at all convenient for me to be away at that time. I should add that I have several special duties in the weeks just ahead and that I shall probably have to give quite a little time to a school that is destitute of the privileges that are almost a commonplace at Nichols. It is in a way a luxury to have a chance to talk at your school but if the other school needs me it is a necessity for me to go---I have no choice in the matter. I am sure that you will see that I must give my preference to the school that has little and as I can set aside but a few dates for nature study talks I am obliged to forego a visit to you this year.

Thanking you for your favor, I am,

Sincerely yours,

Dear Mr Smith,

The Freeport Garden Club are specially anxious to have you speak to them on "Conservation of Highways" – Illustrated. Our meetings are held in the afternoon (2:30 PM.)

If you consider coming to us could you come on March 12<sup>th</sup> (Wednesday)

Our annual Calendar is in the making at present, so I should very much appreciate an early reply, stating lecture fees & etc.

Thanking you for the attention, and hoping you may be able to come.

Supt. Jesse Smith  
Highland Park, Ill.

Dear Friend,

Mr. Haggard of Joliet can't meet with us Wednesday, but Mr. Elliott has made arrangements for a wild duck dinner and has arranged with one or two of the head men from Springfield to be there, so the rest of the committees will meet as we planned at the Boys' Home on Wednesday.

We shall eat dinner with Mr. Elliott. Each man is to get out to the Boys Home as soon as he can in the morning. We shall visit the schools there, eat with Mr. Elliott and then we shall go to the Girls' School after dinner,

Sincerely yours,

Mr. Jesse Smith  
Highland Park, Ill.

Dear Mr. Smith:

I regret that I did not get a chance to see you during the holidays, for Louise Silver said you wanted to get in touch with me. Is there anything I can do for you? Fire ahead! There is something I hope you can do for me. I am wildly chasing a paper on the Birds of Lake Co., published by the Lake County Historical Society, and written by H.K. Coale. I can not give you the date, nor any approximation of it. We have nothing of the publication in our library here, and I simply must get hold of a copy at least for a short time. I am engaged on two books on the birds of Illinois one a pupolar handbook to be issued this spring, another a complete history of the birds of the state,

probably in two volumns, which will take a couple of years yet to produce; I have already briefed more than 1000 titles! If you can help me, it will be more than appreciated.

Sincerely,

*A.R.Cahn*

January 9, 1930

Dr. Alvin R. Kahn,  
Urbana, Illinois.

My dear Mr. Kahn :

I think the paper you have in mind was printed in "A History of Lake County", 1912, largely the work of the late Professor Halsey of Lake Forest. Mr. Henry K. Coale wrote Chapter XIV, pages 353-370, entitled "Birds of Lake County". I think you will find a copy of this book in the University Library. If not, and you wish it, I will lend you my copy. The book has long been out of print. The publishers "went broke" as the binders were finishing the first (and only) edition and the copies were largely boot-legged out into circulation to avoid the obstructions of the sheriff. Coale managed to secure one copy for himself (so did I---I wrote two chapters of the book) and a few re-prints of his article, I believe. If you borrow my copy, you will have to cross your heart and agree to drop dead if you do not return it.

While you were here enjoying a New Year's dinner I had to go down to Gary on an errand and could not find even time enough to call you on the phone. I wanted to ask you for a forecast of the nature of the popular handbook on birds to be issued in the spring. I had hoped that there would be some way to revise and embellish Schantz' "Birds of Illinois". If your popular handbook is to be of the size in which the Natural History Survey Bulletins occur, there will still be a great need for a bulletin as simple and as convenient in size as the Schantz book. The latter as it is in great demand and if it contained adequate illustrations, were carefully checked up as to accuracy, and its descriptions changed from the stilted form to a running, graphic style, it would be of enormous service. I am thinking of school children. They can not come into their own until scientific material is offered in a form that will attract them. Has the Natural History Survey ever issued a bulletin for children? Why should it not do this? You see I am challenging you to prepare your popular handbook so that it will be popular and a handbook!!

Cordially yours,

### Friday, January 10

Snow practically came to an end in the night. Heavy drifts. Mild day.

Left on 7:00 for Chic to funeral of Prof Cox at St Thomas the Apostle's Church - 55<sup>th</sup> & Kimbark Sat with the delegation of the Geog Soc - Schantz, Wright, Bradley, et. al. Saw Dr. Cowles for a few minutes. He looks badly. Home at 1:00.

Mr. Jesse L. Smith  
Highland Park, Ill.

Dear Mr. Smith:

Thru the courtesy of Mrs. Frederick Fisher, president of the Garden Club of Illinois, I am asking you if you can present your illustrated lecture here for the DeKalb Woman's Club at 2:30 P.M. March 14<sup>th</sup>? Our facilities are of the very best for the pictures and we sincerely hope you can come. If you come by rail and arrive on the 12 o'clock train, we shall be delighted to have you for our luncheon guest.

Kindly advise me if there will be a charge aside from transportation.

Sincerely yours

I note I omitted to specify "Road Side Plantings"

January 14, 1930.

Mrs W.A. Kilmer,  
DeKalb, Illinois.

My dear Mrs Kilmer :

This is in reply to your kind inquiry about my talk on roadside plantings.

I am a very busy schoolman and I can not lay aside my work for afternoon engagements nor for evening engagements that will encroach much upon daylight duties. I gave an afternoon without charge to the federation of garden clubs because I was thus able to present my "propaganda" to so many representative persons, but for local organizations I have to ask to set the time and charge a fee. My garden club fee is thirty five dollars.

I regret that I can not serve you in the way you suggest.

Sincerely yours,

Mr. Jesse L. Smith  
Highland Park, Ill.

My dear Mr. Smith:

We hope to have one of your talks on the program of The Central States Garden and Flower Show. Mrs Karcher has given me your name as that of one willing to come. You know, of course, that all the lectures are donated in the interests of good gardening and conservation.

I am writing to ask your convenience with regard to the date. Perhaps Saturday would be the best day for you, and, as there are two, April 5th and 12th, I shall leave them open until I hear from you. The subject most suitable you will know best, I am sure. I have heard you several times with the greatest enjoyment and I should think your talk on Roadside Planting might be very inspiring to the Show visitors.

Sincerely yours,

Mrs Helen Hart Oakes,  
317 Fourth Avenue,  
Maywood, Illinois.

My dear Mrs Oakes :

I pray have a heart and excuse me from addressing leg-weary pilgrims at the flower show. A lecture always appears as a sort of a superfluity to me at such times, there is so much that is rich and objective in the exhibit. If I were an audience, I fancy I would go to the lecture to find a place to sit down for a while. Please let me "tend" a booth or do something similar for the afternoon to show my goodwill.

Sincerely yours,

[Apparently Mrs. Oakes was persistent with regard to her invitation. Mr. Smith sent a second note declining the engagement on February 17. It is transcribed as follows: - ed.]

Home work this A.M. with an hour with Mr Richardson at school

At home with errands this aft, etc

Got out a lot of Audubon letters this evening

[One of the Audubon letters that Mr. Smith "got out" this day was written to Mr. Eifrig. It is transcribed as follows: - ed.]

January 25, 1930.

My dear Mr. Eifrig :

Perhaps if we begin promptly on time at the meeting next Wednesday evening we can not only present the proposed amendment to our bylaws first thing but there may be time to present the chairmen of committees who may happen to be present. It would be a graceful thing for each chairman to name the members of his committee. I give this as a suggestion only.

The tangle of my personal affairs this past week has unfortunately affected the Audubon work. It was the last week of my school semester and my time and attention was at a premium. So when I gave out local printer my copy I did not find time to check him up. The result that our letter to our members did not get down to the city until Friday morning. I sent the printed matter in to Buckley, Dement and Co. who have been doing our addressing for a long time. I thought I could save time that way rather than by turning it over to Mr. Bailey's secretary at the Academy. I hope the letters have been reaching our members today. At any rate all of us should get our notices by Monday noon.

I am mailing you and each of the Directors ten copies of the circular letter to send out to likely prospects. I have mailed over twenty myself.

If you have any bird news, please tell me next Wednesday.---- I have evening grosbeaks to report as well as pine-grosbeaks, etc.

Cordially yours,

**Sunday, January 26**

About 12° below at 7:00 A M. Moderated & at 14 or 15 above most of day. Light snow late aft.

Mr Leech & Billie Childs and I scouted around this A M in Mr L's car to try to find strange birds. No success but a good time. Went through Mr Pick's estate & the Boynton estate.

At home remainder of day.

[Mr. Smith wrote a letter to Chicago physician Dr. Edward H. Ochsner. It is transcribed as follows: - ed.]

February 7, 1930.

Dr. Edward H. Ochsner  
2256 Lincoln Parkway, Chicago.

Dear Dr. Ochsner :

I have read with much appreciation your recent letter to the Tribune relating to the segregation of the criminal insane and I strongly hope that the program you suggest of informing our citizenry as to the conditions at Dixon and elsewhere can be thoroughly carried out. As you well understand there is not a moment to lose in preparing the general public to command the next legislature to give special attention to the work of the entire department of public welfare. I wish that Governor Emmerson would resort to so heroic a measure as to [c]all a special session of the legislature to consider only that one thing. When the legislature is in session there is seldom a very formidable group on hand to urge special attention to the needs of our very numerous state wards and so the trading and compromising when appropriations are pending seriously affect the welfare of these very wards. I think the moral of it all is to organize our groups well in advance stress the widest possible dissemination of the program.

I am one of a committee of three representing the Round Table of northern Illinois (sixty school superintendents). Our special duty being to study the work of the State School for Boys at St. Charles and report from time to time to our organization with the plan ultimately to prepare a program to lay before the entire teaching body of Illinois, a program, for example, for securing for such institutions a teaching staff of the very highest grade. We have had a long interview with Mr. Brandon and some written correspondence; we have visited the institution at St. Charles several times and at the request of the managing officer, Mr. Elliot, submitted two detailed reports with recommendations. We are trying to "bore from within" and so we have showed no impatience but have simply been persistent in suggesting improvements.

And now, getting back to your letter, you are quite correct, of course, as to the intermingling at St. Charles of criminally incorrigibles with the mildly delinquent, and as to the danger that the institution may be a source of danger to the state. The prosecuting attorney at Cicero told me that he never thought of urging a sentence to St. Charles. He and the magistrate bully delinquent boys into straightening up; find jobs for them and dog their footsteps until they make good--at least that is the theory upon which they carry on at Cicero!

Dr. Campbell, one of Dr. Adler's staff who spent three or four days a week at St. Charles, told me last spring that they had not been able to get through more than a very small part of a program for segregation. In November I found that Dr. Campbell had left in August and that no psychiatrist had visited the institution since!!

Several of the cottages house from forty to sixty boys with a man and his wife in charge and a watchman to patrol the dormitory at night.

The managing officer, Mr. Elliott, a very humane man, is open to suggestions whether he has the moral courage and vigor to carry them out and he is to be credited with the proposition to turn over a cottage to Dr. Adler to be officered by the latter and administered as a model for the other cottages. Dr. Adler avoided what I am disposed to consider the acid test. I understand that he desires more study of the "problem": he wants bigger and better laboratories and larger enrolment of students! To me every cottage at St. Charles is a laboratory and if we do not know all we should as to ideal methods of procedure at this time, one thing is sure something has to be done anyway and right now, for the laboratories are overflowing with "specimens" and we surely can do better than the mediocre persons in charge who have had no training whatever!

I am sure you are right, Dr. Ochsner, in insisting that the present laws are adequate and that all is needed is intelligent application. Financial support, courage in the grave task of eliminating the mediocre in personnel, sympathetic interest of a great body of citizens, St. Charles needs all this and all of our other institutions as well.

Sincerely yours,

[Dr. Ochsner's reply to Mr. Smith's letter is transcribed as follows: - ed.]

Mr. Jesse L. Smith  
Supt. of Schools  
Highland Park, Ill.

My dear Sir:

Thank you very kindly for your letter of February 7 received during my absence from the city.

I am indeed glad to know that you approve of my little article published in the Chicago Tribune of recent date. I am thoroughly convinced that if those interested could get together on this subject it could be solved. No one group can along solve it. The psychologist would naturally be a necessary member of such a group but he alone can not work out the problem because in my experience he has a very narrow view of the situation. He is not willing as a rule to apply the known remedies for the simpler conditions but seems to want to first work out the whole problem, a problem which of course will never be completely solved – at best only relatively solved. Practical men of affairs in the various professions and occupations working together and pooling their knowledge and experience could, I am sure, bring about great improvement and that in a short time.

Trusting that some day we may be able to meet and do our bit in discussing this problem, I am

Very truly yours,  
*Edward H Ochsner*

Mr. Jesse L. Smith.

Highland Park Ill

Dear Sir,

I recently wrote to ask if you would be free to address our Parent Teacher group on Tuesday afternoon, March eleventh – our meetings are at half past three – not having heard from you, I tho't perhaps my letter had gone astray.

I have heard such favorable comments on your lecture, "Stimulating Interest in Nature Study" I am hoping you will be our speaker at our March meeting.

Since I am anxious to get my program arranged as soon as possible I am asking for a reply at your earliest convenience.

Sincerely,

Dear Mrs Adams :

It was very careless of me to let your letter of inquiry be side-tracked. I regret that you had to write to call my attention to it.

I will not be able to serve you in the way you suggest. I am obliged to conserve my time and energy these days in order to push two or three public undertakings along and so I have to avoid other engagements as far as possible. I am sure it would be a pleasure to talk to your organization and I regret that I must forego it.

Sincerely yours,

Philad to Atlantic City.

D., W. & I set out after breakf. To Independ Hall, Congress Hall, etc. Beautiful bldgs, within & without. White pine. Numerous portraits, by Chas Wilson Peale. Also portr by Rembrandt Peale, Sully, West.

Display of Ferris' paintings in Congress Hall.

Went past Christ Church burying ground & Franklin's grave, then to beautiful old Christ Church & heard portion of communion service. Wandered past Betsey Ross House to Carpenters' Hall – beautiful bldg walled in by its modern neighbors

D & W. left for Phil after lunch. I lingered. Revisited morning scenes & studied contrasting architecture of later day. Left at 4:10. At Ritz Carleton at 6:00. Great jam in lobby. – To evening meeting in time to hear musical program

**Monday, February 24** Atlantic City.

Mild, very balmy weather here. Beautiful on the board walk

Sat thru out A.M session. Went to "child adjustment" program. Two stupid numbers. Then to Room 12 where we heard fine talks by Ryan and Beatty.

Nyg & W. & I had oysters at Dock's for supper. Fine food

Fine address by Ruth Bryan Owen this evening. Commissioner Cooper gave a very long and tedious address

Band music & addresses spoiled by echo effects.

[The following remarks are written at the bottom of this page, but they refer to Mr. Smith's Philadelphia architectural study of the previous day. – ed]

Many of the bldgs of the 80' & 90' mere monstrosities in style. See Manhattan Bldg – Chestnut & 4th – the most grotesque. Provident Bldg, 4th & Chestnut, a medley. Fidelity-Phila Trust Co, 327 Chestnut between 4th & 5th Faces Carpenter's Hall

313 Chestnut – Phil. Clearing House, a study in Norman defensive style. One could spend hours over the architecture of the City Hall – overloaded, far-fetched – impossible.

**Tuesday, February 25** Atlantic City

Balmier still. Delightful,

Feature of the A.M. session the singing of about 75 boys from Minersville, Pa. Unusually fine

Addresses good but not notable

P.M. – session in Rose Room, Traymore Hotel. Neither Bagley nor Buckingham present, but latter's paper read Mr Allen's excellent

Evening performance has some very impressive features. Serious blemishes due to loud speakers. Organ had its troubles – echoes, etc Singers couldn't hear accompaniments, etc

Immensity of stage & audience room source of trouble. Libretto stilted and a little tedious. Grand finale tremendous

[Pasted to this page is a clipping from the program of the annual meeting. The paper of William C. Bagley, Professor of Education, Columbia University, New York City, was on "The Limitations of Educational Measurements." The paper of B.R. [On March 5, Mr. Lodge wrote a letter to Mr. Smith regarding Audubon affairs. It is transcribed as follows: - ed.]

March 5, 1930.

Mr. Jesse L. Smith  
334 Vine St.,  
Highland Park, Ill.

Dear Mr. Smith:-

I am leaving town this morning for the rest of the month. Have been trying to call you on the phone today, but have not been able to locate you. I have talked to Mr. Pattee and Mr. Decker and they have my ideas for tonight.

I feel that we should move the office to the academy at once.

I suppose the Bulletin will be coming out very soon. I think it would be a mighty fine thing if we could get out another issue of the bulletin around May 1st. I have received the biography of Frank Smith from Dr. Cahn and it is very nicely done in my opinion. I will also have either a picture or a cut already for use by the time we can use it.

Regarding Mr. Schantz and his work, I feel we have paid him all he has earned up to date. He very definitely agreed to accept one-half the cost of the office over there and now says that we can take it "out of the \$600 that is coming to me." I told him there was nothing coming to him that he did not earn. Personally, I hope that he can get enough lectures so that we can fulfill the \$600 proposition, but I would not agree to pay him a cent that he doesn't earn.

I think there is everything to gain by moving the office to the academy at once and nothing to lose. Sorry I cannot be with you tonight, but think I shall give a copy of this letter to Mr. Decker to hand to you so that you can have my views.

Schantz is already gloating over the fact that the bulletin has been delayed although I know he was largely responsible for it.

Very truly yours,  
*F.S. Lodge*

[On this day Mr. Deane wrote to Mr. Smith regarding Audubon affairs. His letter is transcribed as follows:  
- ed.]

Mch. 17th. 1930.

My dear Mr. Smith

While I know but little regarding the publication of the 1930 Bulletin of the Illinois Audubon Society, I was told that you, as chairman of the publication committee, would have the principal authority in its general get up.

I am now rather surprised to learn that Mr Pattee has been given charge and approves the omission of a Table of Contents. As this is a very necessary feature and one that has been continued ever since adopted it would seem very poor policy to make this step backwards when it is a matter of so little time to complete it. Another important feature is the wording of the cover. "THE AUDUBON ANNUAL BULLETIN" should read THE ILLINOIS AUDUBON ANNUAL BULLETIN"

Last year I had two or three criticisms to that effect and the good reason. I had no letter from Dr. Witmer Stone but if you will look at his review in the Auk July 1929, page 409. I am sure you will see the justice of his remarks. The U.S. National Museum also called attention. Now, when it does not cost anything I hope such a slight change will not be omitted. The Bulletin has always been trodden on by certain members of the Directors, but they are the ones who would not notice or care for the points mentioned. In regard to the little change on the cover I am free to say that I had not appreciated it until my attention was called to it and the reasons why. I am sure the members of the Society will welcome another issue after the omission of 1929.

Very Truly Yours

*Ruthven Deane*

Mr. J.L. Smith  
Supt. of Schools,  
Highland Park, Ill.

My dear Mr. Smith,

We are working hard this year to get up some good and unusual programs for our club. And having heard you on more than one occasion (once in Western Springs and another very happy remembrance in Chicago at a

meeting of the "Round Table" when the wives were invited), I am in a position to know how very ably you could fill our need.

We that a talk on Winter Birds would fit in nicely either November 5th or 19th.

Hoping to hear favorable from you, I am,

Yours truly,

(Mrs. E.D.) *Emily W Whitmore*, Pres.

P.S. Please inform me of your fee.

(My husband says he will be glad to get & return you.)

Dear Mr. Smith:

In answer to your letter of May 28th, let me say that I am very glad that you can come to Arlington Heights, on the afternoon of the 19th of Nov.

About the lantern and slides: I feel that, that is up to you. If you decide to use slides I believe I could arrange for a lantern unless you prefer to use your own. Any details can be worked out I'm sure, if you just let me know a few days in advance.

Thanking you very much for your generous offer I am

yours very sincerely,

[On this day, Mr. Gault wrote a letter to Mr. Smith regarding Audubon affairs. Mr. Gault enclosed a letter that he had received from Dr. Thomas Edgar Musselman. Mr. Gault's and Dr. Musselman's letters are transcribed as follows: - ed.]

424 S. Main St.  
Glen Ellyn, Ills.

May 28th. '30.

Dear Mr. Smith:-

Enclosed find another communication from our good friend Musselman. Please have your typist copy it off and return the original to me at your earliest convenience. As he says, it will furnish additional material for our bulletin.

I wrote him it very likely would appear early in the fall. His notes, by the way, will be of good service to me in the revision of our next Check List.

Some of the information he has given us, and the writer in particular, certainly looks good to me, but will have to be cleared up some before being put out seriously in print. In other words, we want the bulletin to be as accurate as possible. Furthermore, I will endeavor to get in touch with the people mentioned in the letter as soon as I can. Just now I'm trying hard to put matters in shape to go north with a friend the latter part of June. I'm going to assist in the erection of a summer cottage on his land in northern Michigan, and may not return until sometime in Oct. He is in error in regard to the Brown Pelican, as I recorded the original capture in the pages of *The Auk* about twenty years ago. The bird was taken at Lacon on the Ills. River, as you will note in our Check List.

You will notice what he has to say in regard to his lecture work. Mr. Smith here is a man that could be utilized to good advantage by our society seems to me, giving attention to a part of the state which badly needs to be worked, visiting a wide area containing many schools and colleges and with an expense to the society considerably less than we thusfar have been paying. The results, too, I figure would be much greater all around, and should reflect in adding a very considerable number of new names to our membership list. I imagine he already is receiving something from his talks, and with a little added thereto by our society he can afford to do us a good bit of boosting. Dont you think so?

I wish you and Mr. Lodge, and others, would get your heads together on this matter and give it thoughtful consideration. I know the man personally and know that he is a good 'live wire' a good stirer-up.

There is'nt much more for me to add to this. Thought I'd mention it, anyhow, and will try to be on hand at the next directors' meeting. Hope to see you there. And, by the way, I understand you are feeling a bit discouraged about the future of the society. Banish such thoughts by all means. On the other hand, I feel very much encouraged over what has been done under the new arrangement.

I understand, too, a desire has been entertained, by whom I do not know, to go back to the old way.

Why that would be fatal, of course, and would result in the complete smashing of the society.

By all means go right along with the present arrangement, and we will come out with flying colors after awhile. Consider this fully, please.

Very sincerely,  
*Ben T. Gault.*

To-

Jesse L. Smith  
Highland Park, Ills.

May 20, 1930.

Mr. Benjamin T. Gault,  
Glen Ellyn, Illinois.

My dear Mr. Gault:

Since the fourth of March I have addressed ninety high schools and colleges on the subject of birds. Imagine my surprise when going into the Whitehall, Illinois, High School, south of Jacksonville to see an extremely good specimen of a white ibis which was killed in the vicinity and which has been stuffed by a local taxidermist. If you wish the complete data on this find I shall probably have it within the next few days.

Starlings have passed on across the Mississippi River and I have had numerous reports of them from at least fifty miles west of Quincy.

I spoke at Carthage College last week and Dr. Earl Lambert, head of the Biology Department and school taxidermist reported the killing and mounting of a Burrowing Owl. I did not have time to go with him to identify the bird but I believe if you will write him he will be glad to send it to you for positive identification. I have had several other reports of Burrowing Owls from the rough country north of Quincy, one from a high school boy who has been doing some very good bird work, but I did not take the report seriously until I talked with Mr. Lambert. He also reports Starlings nesting near Carthage.

The third unusual occurrence was on May 8, I made the positive identification of a Brown Pelican which flew not more than thirty or forty feet from me, passing down the Mississippi River. I have seen the bird many times in South Carolina and in Florida, and as this passed within a stone's throw there was no question of its identity. This has never been reported before from Illinois except once when Dr. Worthen of Warsaw, thirty miles north of us killed one and I think it was in an old collection in Warsaw for many years. This record is recorded in Ridgeway's "Birds of Illinois."

I got a call today from Warsaw telling me of the killing of a small white, fast flying, hawk, so I imagine they have an albino sharp billed or Cooper's hawk. It will be in my hands in the course of several days or will be sent to Dr. Lambert.

I am sending this information so that you can embody it in your latest Audubon bird record. If you care to secure the white ibis for identification purpose you can probably secure the bird by sending to Mr. C.A. Whiteside at Whitehall, Illinois. I suggest that you get in touch with Dr. Earl Lambert at Carthage as he is a good bird man and is the recipient of a great many birds from the territory just north of us.

You may use my sight record of the Brown Pelican if you wish, but in your next edition of the bird list, under the discussion of White Pelicans be sure to include the fact that they are migrating along the Mississippi each spring and fall in some numbers. There's scarcely a year that we do not see from two or three hundred to a thousand of them in the vicinity of Lima Lake.

Mockingbirds are gradually extending their range northward. I have seen four or five different birds in the last ten days, practically all of them being in Adams County and I have two or three reports of their nesting hereabouts.

Cardinals have extended their range northward and are now nesting at least as far north as Galesburg, which is one hundred miles beyond Quincy. Harold Holland of Galesburg, a nationally known oologist came to Quincy in 1913 to collect a set of Cardinal eggs, he reported that he had probably seen three Cardinals that spring. I was in Galesburg last week giving two talks on birds at Knox College and while speaking with him he told me that the Cardinals were on the increase and that this year he had located a dozen or fifteen nests.

Holland is the man who took the pictures of the Great Horned Owl with the baby chicks, which appeared in Bird Lore several years ago, and if you want to know anything about nesting birds in the vicinity of Galesburg you would do well to communicate with him as he is a high-grade scientist, a man about fifty-five years of age.

I hope these suggestions may help you in the building up of material for the next edition of the Audubon Bird List. By the way, when are you coming down to see me?

Sincerely,  
*TE Musselman*

Sunday – June 1' – 30

Fine June day

We got up early and tried to get away by 6:30 – our time but were an hour late – Set off on 62 but had to detour north thru Birdseye & west thru Huntingburg. At Leavenworth we paused for the fine view on the hill west & above L. where the Ohio makes an involved oxbow. Then to Mr Tower's house where we went in to speak to the T's. Mr T just came in from the barn. Mrs T stemming strawberries. Anna Lee's little sister about. Real, genuine people Mr T. supt of S.S. at L.

Paulownia tree in their yard. Gathered some roses then on

At Birdseye a halt where we had an interesting chat with villagers

Saw summer tanagers three or four times. Cardinals more often & bluebirds. Indigo b's all the time Buzzards, sharpshins, broad shouldered

At Huntingburg ran past the Behrens house. So. to Lincoln City where we visited the Nancy Hanks burying ground They have moved the school bldg & church away from the site of the cabin, set up a marker, & are reforesting the hill top. Then they are busy restoring the burial ground Have taken out the pretentious entrance – lions on gateways – eagles on columns, etc & are working to bring back a natural setting Have removed the Culver monument of N. H's grave – all this very much to the good Mr Wiebe, now supt of grounds, talked with us about these changes very intelligently W were delighted with the new program. I am doubtful, however, of the proposed memorial.

Went through Gentryville & on towards Evansville. Trouble with the bus. Near Ev. turned north & at Princeton went to a garage for help

### Picnic

Rain before day but cleared off warm.

Annual "parade of the colors," our own band at the head, Mr Brinley Shaw leading Exercises went off well. Picnic a great success. Shows well patronized. Betty Phelps gave a marionette show for our benefit. Our Gang Comedy, vaudeville, etc. M & K witnessed the parade.

I signed the 101 diplomas & turned them over to Mr Murray this evening.  
Went to H-S grad exercises this evening. Rabbi Mann gave a fine address.

**Friday, June 13**

Last day of school

Warm June day

Morning assembly and honorable mentions passed off well.

This aft I checked up each teacher's reports & gave out the warrants Photographed the group at 1:30. Miss Marks here also.

I photographed a tall carrot stem & blossom in Miss Meyer's room

Grad ex this evening. Quite successful

M & K present. Largest class ever! 8B's & 8A's all at once.

**Saturday, June 14**

Fine warm day.

An hour or so in my garden. Most of remaining time at school

This evening Cunningham & I went to the Orrington at Ev. in C's auto & got Prof Lee of Dearborn Ast. Obs. & brot him up to Elm Place to study our proposed telescope sites. Miss Guiney met us at the bld'g and we all went up on the roof of the Int Bldg. Then the two men & I went up on the deck of the El Bldg. A great view but impossible because of the smoke stacks. Decided in favor of the Int Bldg site. After all four of us were refreshed at Pease's drug store – C & I took Prof Lee home – A fine evening.

### **Sunday, June 15**

Sultry. Rain this aft.

M & I to church in Mr Parratt's auto.

I went down to Patten Gym this aft to baccaureate of N W U. Sermon not very impressive

This evening Miss Cramer took M., K. & me to Ferry Hall to Roger Balke's piano recital. Splendid work

[Pasted to this page is a clipping of the program for the Lake Forest School of Music Junior Recital featuring Roger Balke, pianist. – ed.]

### **Monday, June 16**

Sultry with a downpour or two.

Cunningham & I drove to U of C this A M. I registered for a field course in entomology. Had a fine visit with Dr Frank & chat with Allee, Bobbit, Emerson, Hill. Consulted Mr Baird of Teachers' Placement Bureau about first grade; also Miss Temple. A short visit with Mr Gillette & Mr Storm.

Downtown – conferred with Searles & Miss Smith at Albert Agency. Shopped at Eastmans Home at 6:00

School Board this evening. Murray, Pfanst., Berkson, Martin Hart. Long & friendly discussion.

### **Tuesday, June 17**

Turned off rather cool. Foggy at first.

I staked my tomatoes, planted 6 hills of cucumbers in the L.G., hoed the bean bed there, and two rows of corn

Took 11:15 for Chic & at 1:15 was in class room for first lecture by Mr Emmerson.

Then to Cobb Hall to talk with Mr Baird, chairman of placement – then an interview with Miss Gladys Williams who has taught at Shaker Heights – Favorable impression.

Home before six. Took bottle of M's cough medicine to Mr Chapin in the hosp. & then to Mrs Millard's dinner party – Ingerles, Baldwin, Fisher, Bullard, etc

### **Wednesday, June 18**

Cool Pleasant. A little fire in furnace this evening.

I met Miss Courtenay Davidson of Bloomington (daughter of Pres of Wesleyan) at 8:00 to talk primary position with her. Then I conferred with janitors about outdoor work. They hoed the L.G. this day.

Took 11:30 for Ch. Met Prof Emmerson's group at 1:30. Stopped off in loop on way back to shop Set out petunias this evening. Hoed corn in L.G. & planted 6 hills of cucumbers.

A warm day

Up at 6:15. Breakf at restaur. & at Zoology Bldg at 15 of 8:00 Mr Pearson, at the wheel of the "yellow peril". Mr Emmerson in charge – 7 students & Mr E's little daughter. To Palos Park – collected along a brook – in the woods – in the meadows, etc. Lunch on a high slope looking north across the valley. Back to lab. at 4:00. Mounted some specimens. Then got my bag at Hayes Hotel & off for home

### **Sunday, June 22**

Tempered somewhat by gray sky.

At home nearly all day. After dinner Arthur Lawley & his wife drove up with Jesse & Fred & we had a fine visit.

This evening I called on Mrs Herman and went down to the home on Princeton Ave where the Kendalls formerly lived. Later Mr Fitt gave me their address on Broadview

Janette K & a young Mr Collins were killed in an auto accident yest. —

Tony Lencioni was killed in an auto accident yest at Moraine & St Johns!

[Obituaries for Jeannette Kendall, George Martin Collins and Antonio Lencioni appeared in the local newspaper, the *Highland Park Press*. George Martin Collins, age 25, and Jeannette Kendall, age 19, were killed in an auto accident returning after a dance to a cottage at Gunn Lake, Michigan (near Kalamazoo). The automobile, driven by Alden Fork of Glen Ellyn (who was unhurt in the accident), was descending a steep hill and navigating a sharp curve when it ran into loose gravel, left the road and overturned. Another passenger in the automobile, Marion Collins, George's sister, was slightly hurt. Mr. Collins was a graduate of Deerfield-Shields High School. He was employed by Herring-Hall-Marvin Safe Company. Miss Kendall was attending Northwestern University and was engaged to William Lee Dickinson. Antoni Lencioni, aged 23, died at 3 a.m. on Saturday from injuries sustained in an automobile accident at 7:30 p.m. Friday evening. He was a passenger in an automobile that struck another vehicle. Mr. Lencioni was a graduate of Elm Place school and was employed as a painter. — ed.]

### **Monday, June 23**

Very warm Warmest of the year. 97° Did not go in to the Univ. this day. At school much of time. This aft to funeral of Jeanette Kendall & Geo Collins auto accident. Drove my own auto there & elsewhere today

Ordered paint, etc. for the school. Planned cleaning jobs, etc Made out pension report, etc

Got my hose running this evening. A brief shower

### **Tuesday, June 24**

Shift in the wind in the night and delightfully cool today.

Went to city earlier and had a conf with Mr DeLoach over audubon affairs

Then to U of C. to Prof Emmerson's lecture. Afterwards to Gen Biol Supply House – 69th & Cottage Grove & home

In the garden until nine Then to Mrs West and found our balance after telescope is paid is 823.00  
+. Then to Mr. Mann's where we discussed plans for building, etc

### Wednesday, June 25

Warmer but not burdensome

To Glencoe to interview Miss Marks & Mrs "Queenie" Grant about two candidates for teaching position. On to Univ. for aft class Then back to loop. Shopped at Fields; at Bausch & L; at Carson Pirie, arranged to have an estimator come out & look at linoleum in E.P. hallways Went to a movie. ### Friday, June 27

Chicago to Olney

Left early & at 10 of 8:00, met Mrs Hutchinson in her Pierce A. (Patrick as chauff.) & we set out. Picked Prof Osgood at Quadrangle Club. Left city by So Park Ave., & Halstead. Got on 49 beyond Matteson & took this route clear to Flora. Had coffee at Kankakee Hotel. Lunch at Mattoon (U.S. Grant hotel) & reached Olney (Hotel Hazel) at 4:00. Rested an hour. Then to Larchmound where Mrs Palmetier met us and showed us about. Then we all rode out to Bird Haven & rambled about. Visited Ridgeway's Grave. The farm attached to the preserve.

Supper at Hazel Hotel.

[Robert Ridgeway (1850-1929), American ornithologist and author of numerous books and articles, including the twelve volume *The Birds of North and Middle America*, was Curator of Ornithology for the Smithsonian until 1916 when he moved to Olney. He purchased 18 acres in the country which he developed as a bird sanctuary called Bird Haven and a home "Larchmound" on the outskirts of Olney. When his wife died in 1927, his widowed sister Lidia R. Palmatier came from California to take charge of Larchmound. - ed.]

### Saturday, June 28

Olney to Chicago

Delightfully cool.

Walked about the more interesting streets before breakfast. - T.E. Musselman of Quincy had registered late last evening & he and Prof. O & I had a visit before breakf.

We drove away at 8:10. E. to Lawrenceville & north on No. 1.

### **Monday, July 7**

A fine day.

Clarence & I took M in his auto to Evanston to try to find comfortable shoes for her. Not successful. - - We went to the city by train this aft & hunted up Mr Poedtke in Field's basement – as recommended by a shoe salesman at Ev. - & had him send out two pairs for trial Clarence ordered a suit at Kuppenheimers. I called at Chic Transp Co & at Bausch & L

Sprinkled two or three hours this evening

[On approximately this date (Mr. Smith's reply is undated.), Mr. Smith replied to a letter from Dr. Alfred O. Gross regarding slides of Prairie Chickens (See Mr. Smith's letter to Mr. Deane, December 10, 1929 entry.). Two letters from Dr. Gross and Mr. Smith's reply to the first letter are transcribed as follows: - ed.]

Hotel Dixon, Wisconsin Rapids, Wisconsin. July 1, 1930.
--

Mr. Jesse Lowe Smith,  
Highland Park, Illinois.

My dear Mr. Smith:-

On May 13 I sent to your address a set of 43 slides of the Prairie Chicken according to a request of the secretary of the Illinois Audubon Society, Miss Catherine A. Mitchell. I have never heard from these slides and I am wondering if they were received. Please let me know about this matter at once so that I may have them traced if you have not received them. If the Society did not wish to keep the complete set the remainder were to be returned to my address at Brunswick. In case you did not receive my letter written at that time the slides as charged by the photographic Department was \$ 1.50 each or \$ 40.00 if the complete set of 43 slides were to be purchased. I made no charge for my services.

I will appreciate very much if you will let me know about these slides at your convenience.

Sincerely yours  
*Alfred O. Gross.*

Hotel Dixon, Wisconsin Rapids, Wisconsin.

The slides were shipped by express from Bowdoin College, Brunswick, Maine, on May 13, 1930.

Professor Alfred O. Gross,  
Wisconsin Rapids, Wisconsin.

Dear Professor Gross :

I am obliged to admit that I and my tangled affairs are to blame for the neglect to attend to the matter of the examination of the set of slides and to remit for them. My colleagues of the Audubon Society were waiting for my report and are in no way to blame for the seeming discourtesy. As for me it seemed that I could not find a favorable time to run the slides through the lantern and prepare to recommend those best adapted for our purpose. I am unusually hard pressed with my school business and trying to follow up some university work which began before my regular work was at all completed. Only night before last was I able to run the slides through the lantern.

I decided that we should hold out at least fifteen slides but the price of the unbroken set is so reasonable that I am recommending that I be permitted to hold the entire set. I am writing you direct from my home in Highland Park and I will phone our secretary, Miss Mitchell, to send you a check. It should reach you almost as soon as this.

Please do not think unfavorably of any one on our Board, including your good friend Mr. Lodge, except myself. My intentions were all right but I have made a mess of it. If later on there comes a time when I may be of service to you, please give me the chance.

Sincerely yours,

Hotel Dixon, Wisconsin Rapids,  
Wisconsin, July 15, 1930.

Mr. Jesse L. Smith  
Highland Park, Illinois.

My dear Mr. Smith:-

I received your letter also a letter from Miss Mitchell containing a check when I returned to Wisconsin Rapids today. I wish to thank you for your very nice letter and I wish you to know that I understand the circumstances perfectly. I am frequently guilty myself and it is consoling to know that others are also busy. I hope that I may have the pleasure of meeting you in Chicago sometime. I had a delightful visit with the bird people in Saint Paul and Minneapolis this past week and all of them spoke very nicely of the work of the Illinois Audubon Society.

I am sincerely yours

*Alfred O Gross*

[On this day, Mr. Smith replied to an invitation from Mrs. Ruth Work to speak before the Barrington Woman's Club. Mrs. Work's invitation and Mr. Smith's reply are transcribed as follows: - ed.]

July 31, 1930.

My dear Mr. Smith,

I heard you talk on "Delight in Simple Things" before the Garden Club of Illinois last year. I should like to have the Barrington Woman's Club hear that lecture and see your beautiful pictures. Will you please tell me what fee you charge, - also, in case the committee can arrange to have you, would you be able to come the third Wednesday of March or April?

Very sincerely yours,  
(Mrs. Robert) *Ruth Work*.  
Program Chairman

August 5, 1930.

Mrs Robert Work,  
Barrington, Illinois.

My dear Mrs Work :

Thank you very much for your kind inquiry about my talk on "Delight in Simple Things".

I fear that I could not serve you for an afternoon engagement. It is so hard to get away from school work while the school is in session that I have about given up all engagements other than on "off days" or in the evening. If at any time you should have an evening open I would be glad to go to Barrington. My fee for nearby engagements is thirtyfive dollars.

Trusting that some time I may be able to serve your group, I remain,

Sincerely yours,

### Wednesday, August 6

A fine day Gentle lake breezes.

[Mr. Smith received a letter from Ed. A. Wight regarding Mr. Smith's talk at the School of Education on this day. The letter is transcribed as follows: - ed.]

5737 Woodlawn Avenue  
Chicago, Illinois  
August 13, 1930

Mr. Jesse Lowe Smith,  
334 Vine Avenue,  
Highland Park, Ill.

Dear Mr. Smith,

After hearing your delightful talk and seeing the beautiful pictures at the Science Club in the School of Education last week, I feel that I am not taking too great a liberty in addressing you.

To get at once to the point. A group of young people at one of the Hyde Park churches is interested not only in the religious side of its development but in the cultural as well. They have expressed the desire to have authorities in various fields at some of their Sunday evening meetings. I can think of nothing finer than such an illustrated talk as you would give.

Knowing nothing of the conditions under which you appear before organizations of this nature I hesitate to suggest a definite date. Yet I wish so much that you might be able to come before the summer is over I am taking the liberty of suggesting Sunday evening, August 24th. Or, in case that date is impossible, two weeks later, September 7th.

The group is the Senior League of the Hyde Park Methodist Church, located at Blackstone and 54th Streets. The meetings are held at 6:45, and are often followed during the summer by informal social or recreational affairs. The religious theme does not have to be a part of the speaker's program.

Possibly it would save time for you and expedite making an engagement if I call you on the telephone in a day or two. We could then discuss any further information or conditions.

Very truly yours,  
*Ed. A. Wight*

#### **Friday, August 8**

Very warm again but puffs of lake air at times.

Mowed backyard this morn & more parkway this evening.

At school a while. Garrity began laying drain tile on playground.

At G.B. school I inspected grounds. Mr R. had taken up linoleum in Miss Thomas' room & some in hallway. Rotting in places. Floor damp. To be left for inspection

Miss Mitchell, Mrs Cory, & Mrs Bangs came in an auto – stayed half hour (this aft). Fine visit. Talked possibility of exhibit at State Fair ( - Aud Soc & W.F. Preserv. Soc.).

M., K, Mrs Chapin and I had nice drive again this evening.

### **Saturday, August 9**

Very warm – but lake breezes set. A thunderstorm with a heavy downpour between 3:00 & 4:30 this aft!

This AM. went out nearly to the Des Plaines & took a photo of a group of Joepy weed there. Took a chicory group picture and a group picture of silphiums on my parkway this A M

Hoed a half hour in the Larson garde. Pulled two cucumbers (the first there) & gave them to Mrs Larson. Gathered 15 ears of G.B. corn. 13 two days ago. Two cucumbers in my backyard gathered Pallbearer at funeral of our neighbor, Mrs Love, this aft. Storm burst during ceremony. Lull afterwards but there was a downpour at burial in N.S. cemetery. Rode in auto with the Terrys & Rev M[r?] Edward

### **Sunday, August 10**

A beautiful day. Cool.

The Enders and the Danforths came in at 9:30 in Arthur's car & are staying over night A fine time Some of us went over to the Larson garden and brot in about 20 more ears of corn. We pulled a large cucumber from our home vines.

This aft all but A., M., & I drove around Lake Forest a while. I developed some 3¼ x 4¼'s.

At five we all posed in front of haw on my west parkway and were photographed – two of the entire group & one of Mother, L. & Ruth.

### **Monday, August 11**

Another

The "folks" left at 5:00 A M for Gary – to be there for breakfast & so that Clarence D. could open up the store

At school some this AM & most of this aft.

Mr Mann & I met there and went over things together

I mowed my outer lawn today. Hoed some in the L. Garden. Brot away one cucumber & got one off my own place

Met Will Vetter at school & had him commence wiring for stairway, pent house and observatory.

Long conf. with janitors this aft.

Conf with Dr Fritsch this evening over new equipment.

Then to library board meeting in new quarters at old city hall. The moving from our now abandoned library bldg to the present quarters had been carried on skillfully, & the change has been inspiring. The enlargement of facilities even in temporary quarters is an earnest of what is to be in the new building.

### **Friday, August 15**

Another fine day. Warmer.

Met Everett Millard a very short time just before the 8:09 & at his suggestion went over with Ed Laing the matter of landscaping a wedge of pub. lib. property across the ravine Mr L. promised to include it in an adjacent area in the Fall.

[On this day Mr. Smith replied to an invitation to lecture before the Garden Club of Park Ridge. The invitation and Mr. Smith's reply are transcribed as follows: - ed.]

Mr Jesse Smith

Highland Park – Ill

My dear Mr. Smith – I heard you give the illustrated before the Garden Club of Illinois about a year ago. Our Club is an evening club and I thought the men would be thrilled to see the lovely pictures you have. Could you give your talk at our next meeting the first Friday in October or if not then – the first in November? And could you let me know your fee? Our Club is about two years old, and the men are the most enthusiastic of the bunch, and I thot it coming in the evening, it would be less apt to interfere with any other work you might be doing. Could you let me know at your earliest convenience, and I do hope we may be able to arrange it. Also would you like me to rent a lantern here in Park Ridge.

Sincerely Yours

Mrs. J.W. Saul,  
Park Ridge, Illinois.

My dear Mrs Saul :

Thank you for your kind reference to the talk I gave before the Garden Group last winter.

I have an engagement for the first Friday evening in October but I can reserve the evening of the first Friday in November for you if your group decides that that date and my terms are satisfactory.

My fee is thirtyfive dollars. I furnish an excellent lantern and either bring an operator or operate it myself.

Sincerely yours,

Before church I showed Dr. Leighton & Mr Zook some features of our school.

Then M & I went to Presb Ch & heard a good sermon by Mr Fitt.

At 2:30 Mr Zook & little J D & Dr. L. came in Mr Z's machine & we went up to survey the Waukegan Flats. Dr L. pleased to look them over A fine occasion for me.

### **Monday, October 20**

Record cold for this date

Down to 21° on my front porch. Mr Leech claimed 14°. (4 feet of snow reported in Buffalo).

Busy day. Conf with 7A – 8's at 4:00. Then to conf at Library to plan the part of the school children in Friday's ceremony of corner stone laying (library).

Mr & Mrs Chas Mason called for a while after supper – then I went to our aud to the open meeting under auspices of League of Women’s voters where various candidates appeared on the program.

When I got home I found that M. had had a terrible fall at the foot of the basement stairs & deeply gashed her forehead just above the left eye & bruised herself generally. Dr Lois Green came in & dressed her wounds & we got her upstairs to bed. Absolutely miraculous that she broke no bones.

### **Tuesday, October 21**

Milder but still unseasonable cold.

M. in bed all day. Dr. Green called before 8:00 A M & again at 7:00 P.M The cut seemed in good condition. M’s left eye almost closed. She had a vomiting spell this evening.

### AMERICA THE BEAUTIFUL

KATHERINE LEE BATES, 1905

O beautiful for spacious skies,  
For amber waves of grain,  
For purple mountains majesties  
Above the fruited plain!  
America! America!  
God shed his grace on thee,  
And crown thy good with brotherhood  
From sea to shining sea!

O beautiful for heroes proved  
In liberating strife,  
Who more than self their country loved  
And mercy more than life!  
America! America!  
May God thy gold refine,  
Till all success be nobleness,  
And ever gain divine!

O beautiful for pilgrim feet,  
Whose stern, impassioned stress  
A thoroughfare for freedom beat  
Across the wilderness!  
America! America!  
God mend thine every flaw,  
Confirm thy soul in self-control,  
Thy liberty in law!

O beautiful for patriot dream  
That sees beyond the years  
Thine alabaster cities gleam  
Undimmed by human tears!  
America! America!  
God shed his grace on thee,  
And crown thy good with brotherhood  
From sea to shining sea!

[The Jesse Lowe Smith papers in the Archive of the Highland Park Public Library contain the following manuscript. It is not dated, but addresses the topic that Mr. Smith presented on this date to the Wild Flower Preservation Society. It is transcribed as follows: - ed.]

Something might perhaps be said by way of encouraging lovers of garden flowers to assume more and more responsibility for the preservation of our native wild flowers. In the list of cultivated flowers for the garden are, of course, many representatives of our native flora such as anemone, pennsylvanica, butterfly weed, shooting star, mertensia, cardinal flower, and a great many that have been "improved", even if not vulgarized as sometimes happens. But there is a great host of interesting and sometimes very beautiful plants which do not lend themselves readily to the more or less sophisticated surroundings of the cultivated gardens. Why not devote our public parkways to propagation of some of these where they may appear after the casual fashion that prevails on prairie and undisturbed highway and thus keep the primitive and the derived near at hand, though separated by concrete walks and broad bands of green sward?

We are coming to look upon the railroad right-of-ways as the last stand of our native flora where it makes a brave front against the section men who attack it with fire and sharp steel. Why not, then, offer these beleaguered primitives sanctuary along our public parkways? The parkways we mow over at necessary intervals are of little interest between mowings. Suppose they were laid off in large plots with sweeping curves and with well-mowed grass paths among them, and given up to masses of ragwort and yarrow and mullein and liatris, and to the successive displays of native asters and goldenrod and yellow-rayed compositae. Think of the weeks of pageantry there would be where now prevails only a uniform display of green sward, the grass itself not being allowed to bloom! Winter would find these parkways still interesting with mullein stalks and with the dark brown stems and seed vessels of yarrow etched against the snowbanks.

For help in deciding what to plant, one may consult almost any considerable extent of railway embankment. Practically everything that will flourish on a clay and cinder embankment will give a good account of itself on a dry

parkway, and that means both of our dwarf roses, *rosa blanda* and *rosa humilis*; it means New Jersey tea, butter-and-eggs, flowering spurge, wild four-o'clock, Indian hemp, daisy fleabane, black-eyed susans, cone flowers, goldenrod, and many, many others. What will flourish at the foot of an embankment where the runoff from rainstorms lingers awhile, will thrive where one can occasionally soak the parkway with a hose, and that means spiderwort, and sneezeweed and *physostegia* and jopye weed, and cardinal flower and *liatris*, and, again, many, many others.

Seed we shall have little trouble in obtaining, but where are specimen plants to be had for an immediate start? Keep only a jump ahead of the real estate promoter who is a very real scourge on the land. There you will find plenty of plant life in sore need of sanctuary. In his wake lie uprooted forests; he turns prairie and wayside into weedy wildernesses. We can often forestall his depredations, and with fair success, for many of the fibrous rooted plants survive the transplanting under unfavorable circumstances if watering is kept up persistently.

If we watch a natural area for an entire season, we can get valuable suggestions for plant succession on our parkway so that a single plot will in time show several phases in the same season. Stargrass, golden ragwort and shooting star, pennsylvania anemone, daisy fleabane, *krigia* and meadow rue will be succeeded by turkscap lilies and the milkweeds, the red, the common, the swamp and butterfly weed, by black-eyed susans, veronica, monarda, *liatris*, boneset, jopye weed, *gerardias*, sneezeweed, ironweed, vervain, and a procession of goldenrod, asters, and other composite flowers. There may be displays of chicory running through the summer, and of other travelers like butter-and-eggs, salsify and goat's beard with their huge seed balloons, and queen Anne's lace. Prairie dock and resin weed, those stout prairie sentinels with huge roots, and various members of the lettuce family notable for their leaf display can have a place.

If we are willing to cooperate with nature and accept her selective activities, we need not worry much about soil content and condition. Sanctuary is all that is asked of us. If such lovely blossoms as those of chicory can be lavished on the countryside without encouragement and even in spite of persecution, we can hope for great things where we are willing to work according to nature and follow her clues. Some planting, some encouragement, great forbearance on our part, and nature will do the rest.

Telephone Plaza 1387  
5137 Kimbark Avenue  
Chicago – September 12<sup>th</sup> 1930

My dear Mr Smith:

I hear that you have one or two new lectures that the members of the Wild Flower Preservation Society have not had the pleasure of hearing.

Can you give either of these at our Annual October meeting at the Womans Club on Saturday, October 25<sup>th</sup> at 12 – 30 o'clock? There will be a luncheon and the lecture will follow.

Will you kindly let me know the title of the lecture you consider best suited to our group and the charges for same?

I feel that you understand our work, and are more able than anyone else to make our members understand and appreciate the great need for conservation.

It was so nice to have a chat with you and your Mother the day Catherine Mitchell and I motored over to Highland Park.

How is the little garden, still blooming I hope in spite of the dry weather.

With kindest regards to your Mother

I am

Sincerely yours  
*Harriet W. Cory*

5137 Kimbark Avenue  
Chicago – September 24<sup>th</sup> 1930.

My dear Mr Smith:

We appreciate your consideration in offering to speak or not to speak as the occasion demands, and assure you that your lecture on the Preservation of our Roadside Flora is exactly appropriate and just what we want.

It is very generous of you to give us your lecture without a fee, and we appreciate your generosity.

I sometimes wonder if you know how much enjoyment you give us with your helpful and interesting talks. Everyone to whom I have mentioned the possibility of your lecture has said "Oh splendid" or "Fine" or "There is no one I would rather hear." So there is no doubt – you can depend upon an enthusiastic audience.

Our meeting will be at the Chicago Woman's Club 72 East 11<sup>th</sup> Street October 28<sup>th</sup> at 12 – 30 o'clock, and our lecture will follow immediately after the luncheon.

With many thanks for your generous help

I remain

Sincerely yours

promise of trees from his yard. - Home & set out one Asc. purp. & 20 or so A. speciosa. etc.

#### **Sunday, November 9**

A beautiful day. Mild

Rested this A M.

This aft drove out to scout a little bit. Visited woods west of Sacred Heart Academy. Then  
Tillman's woods and nursery, and the woods just west of tracks on W. Park Ave.

This evening Mother began dictating to me the story of her school days, etc.

#### **Monday, November 10**

Most beautiful day.

Left at nine in my auto for Maine Tp H.S. near Des Plaines, an institute for teachers in northern Cook Co being held there. I was on program of science section to talk on some phases of the teaching of nature study. Mr Merrill presided over my section. Dr. O.D. Frank & I gave the program. Had a very good time. I drove him into Des Plaines to catch a train & came back – Mr T. Wilson of Arlington H. with me – to eat cafeteria lunch & hear the afternoon program. Fine baritone. Then Frank Lloyd Wright! Rather abbreviated address but very interesting.

Back at school before 3:30. Bd meeting this evening. Long session. Friendly.

[Pasted to this page is a clipping from the Cook County teachers' institute. Mr. Smith spoke on "Some Phases of the Teaching of Science in the Elementary Schools." Dr. Frank, of the University High School, spoke on "Utilizing the Interests of Boys and Girls in the Teaching of Biology." – ed.]

### **Tuesday, November 11**

Yet another but growing gray as evening came on.

Morning ex at G.B.R.S. and armistice day exercises at Elm Pl at 11:00. Informal but fitting & well done.

Cpts McCord & Fake of Ft S. conferred with me over proposed increase in tuition charge to begin Feb. 1.

Spent some time on the G.B.R. planting project.

Mr Schultz & I went down to hear Admiral Byrd at Orchestral Hall. Crowded & had to go into the gallery. Fine talk & pictures.

### **Wednesday, November 12**

Much as yesterday, but threatening at times.

Scouted out on Dundee Road and nearer H.P. with Mr. Jensen looking for resin weed, etc. We inspected No. G.B. Road planting. - - I took Mooney & Cunito to the Noerenberg – Decker place, No St. Johns, & had them dig load of sumac to set along embankment.

At G.B.R. school a while. Dr Hamilton finished upper left bridge this aft.

Miss Kinsolving brot the Tony Sarg marionettes to our aud. this aft & evening. Good house this aft. Almost neglible this evening.

### **Thursday, November 13**

Mild. Gray. Foggy at A.M.

Picked up Mooney, Cunito & Finley at 7:45 & took them out on Skokie meadows to collect rosa blanda, etc., liatris, silphium t., coreopsis t., veronica, wild grape vine, etc Visited the men at work on No. G.B. Road three or four times. - - Turned in pay schedules at City Hall. - -

This evening Prof Lee came up about 9:00 to help get our telescope oriented & we made some headway, but cloud came up & obscured the sky & he had to leave his work unfinished

I prepared my luggage for the trip with Prof U.S. Grant's class to the Driftless Area.

Arranged with Chas Grant today for the bank to carry my mortgage note for \$1000<sup>00</sup> due Nov 17 – for ninety days. Mailed bank a check for \$210<sup>00</sup> interest.

### **Friday, November 14**

To Plattsville.

Left at 5:00 A M for N.W.U. where Prof. Grant's party took bus for the "driftless area"

Breakfast at Elgin – Kelley Hotel – lunch at Galena, & dinner at Plattville, Wisc. Tracey Hotel, which we reached at 5:15.

Conf. in the evening & so to bed

Made the mine in the aft & went down to its lowest level. Studied process of separating ore from rock

**Saturday, November 15** At Plattsville

Rained in the night, foggy & drizzly much of A M

We went to three or four “localities” this A.M. Back to hotel for lunch. This aft again to “make a section”, visiting Platte R & tributary streams.

Conf aft supper. Then Professor Grant & Ball, & one of the boys went to the movies. Poor stuff.

**Sunday, November 16** Plattsville, Dubuque, Evanst.

Rained in night. Cleared somewhat. Cloudy much of time. Windy.

Left hotel at 7:30. Visited Prairie du Chien formation 7 mi from P., then went on to Dubuque. Coffee & rolls at 10:40; then back across Miss R. & through Galena, & Elizabeth to Freeport where we had dinner at Freeport Hotel at 1:45. On home, getting to Ev. at 6:00. To H.P. at 7:00.

**Monday, November 17**

Fine day. Mild

At morning ex. Mr Pryor of Chic. Mot. League talked dangers of auto. Mr Lyons & three of his assistants with three H.S. students demonstrated band instruments

I authorized Mooney & Sheahen to plow up parkway along R.R. north of Moraine Road viad. to H.P. limit & plant it.

Mr Jensen & I inspected their work at noon and then ate lunch at G. Teapot.

Teachers meeting.

This evening Mr Murray & I met at the office and worked up statistics & indulged in a very long argument on prohibition.

**Tuesday, November 18**

Beautiful day. Mild.

Mooney, Sheahen and Cunito on the parkway job today

Morning ex at G.B.R.S. Helped Miss Stark’s pupils plant 50 p. w.’s.

Mrs Clark of Wilmette came to ask me to conduct a field trip for their garden club to the Flats in June

Matheny called.

In dental chair an hour this aft

Called on Mr Wright a short time this aft. Examined his map of the school districts. Made one for Mr Murray.

Took 5:04 for Chic To Aud. Soc. meeting on 23rd floor of Medical & Dental Bldg. - - - Got affairs under way.

**Wednesday, November 19**

Almost sultry. At 6:30 this evening – ther. read 64°.

Before 8:00 to Sheahen Woods to direct Mooney, Sheahen, & Cunito in digging a load for G.B.R.S. grounds – crab, plum, prickly ash, vib. lentago & pubescens, hazel, gray dogwood. Mr. Jensen

advised us as to the planting & they were set out in front part of grounds Mr J & I scouted out on Deerf. Ave & located some sumach. This eve tried to get in touch with owners & secure permit to dig. - -

Book week ex by 6 & 5's & 7's this aft with pupils & parents as audience. Beautiful. Great success.

### **Thursday, November 20**

Burglary at Elm Place

Gray. Threatening. Then rain in aft & to dark. Not very heavy fall.

A phone message from Mr Kolterman just as I was sitting down for breakfast told of our school safe chopped open & rifled. I hurried over, called up the police & spent the next two hours or so on the job. The burglars borrowed a chopping ax & a pickax from the engine room & laid the former & the head of the latter on top of the safe when they got through. The plaster brot out of the safe wall got on their boots & so we could track the ment into several rooms. Took a little over eight dollars in cash, three dollars in stamps; two R.R. tickets from Miss Stine's pocket book, Miss H's Corona typewriter. Used gloves & finger prints N.G. No clue.

Conf with Miss Parson this aft & studied her group of pupils for two periods. Met with study class after school. Mr Danley & I examined the radio at 9:30 P M

### **Friday, November 21**

Cold wind. Lowering temp.

Took Mooney & Cunito out on Deerfield Ave before 8:00 & set them digging sumach on Bodeweiss lot, Corner Sunnyside & Deerfield Aves.

[Jens Jensen dictated a letter dated this day to Mr. Smith regarding a committee appointment for The  
Friends of Our Native Landscape. It is transcribed as follows: - ed.]

November 24, 1930

Mr. Jesse L. Smith  
Elm Place School  
Highland Park, Illinois

Dear Mr. Smith:

At the last meeting of the Board of Directors a motion was passed instructing the chairman to appoint a committee to consider the need of more provisions for a popular outdoor recreation, particularly as related to the due protection of the Forest Preserves, and to arrange for a presentation to the full Society the committees recommendation as early as possible in the coming year. This motion was a result of a general discussion of giving the children in our schools of America a greater knowledge of the out-of-doors of which they are a part. Amongst other things discussed was the publication of a primer describing in a form easily to understand by the children groups of our trees, shrubs and flowers, as well as the animal life.

I am appointing you as a member of this committee and hope you will serve. The other members of the committee are Miss Irene Russell, Arlington Heights, Illinois, and Miss Sophie Theilgaard, 431 Oakdale Avenue, Chicago. I realize the difficulty of the committee getting together. What do you think about each member putting his or her views in written form instead of holding meetings? If possible, I should like to have a report for our Board meeting, December 9th.

Kindest regards,

Sincerely,  
*Jens Jensen*

Morning ex at G.B.R.S.

Set Mr Wygal at work on grounds at G.B.R.S – spreading manure, etc

This evening met Miss Guiney, Cramer, McBroom & Mr Cunningham at observatory. Mr Bartoli poured melted Babbit into bolt holes & the bolts were tightened. This seems to be the final ceremony.

Then we tried out the telescope on Pleiades, Orion, Jupiter, The Moon – Seems to be a great instrument.

M & K spent the evening at Miss Behrens. Had a good time. I brot them home at 10:00.

### **Wednesday, December 10**

A beautiful day.

Directed Mr Wygal in his work at G B R S. - - Workman from Art Institute came & pasted on north wall of upper hall of El. Sch. Bldg the two mural panels originally set up in old aud.

Helped some on the Christmas play, etc

### **Thursday, December 11**

Sunny this A M. Gray in aft. Slight drizzle at night

Much time spent on Christmas Play.

This evening our staff had a dinner at G.B.R.S., Mr Jensen speaker. Mrs J. & Martha guests. M & K. went. Mr J talked about his European trip this summer. Very interesting.

I hoisted a flag on the new pole at G.B.R.S. This had been given us (yesterday) by Catherine Gilroy.

### **Friday, December 12**

Mild. Gray.

Up a little earlier than usual and spread two yds of green manure about plants and shrubbery.

Spent much time on the Christmas Play today.

The Harris Co. brot out our shelter house (a portable garage) and set it up (almost finished the job in a half day).

Went to Deerfield-Shields Tp H.S. to hear the International Harvester Co's chorus sing the Messiah. Had tickets for M & K but they were too tired to go – so Mr & Mrs Riddle went with me. Very creditable.

[Pasted to this page is a clipping from the concert presented by the International Harvester Choral Society, conducted by Richard De Young. The concert was held under the auspices of the Highland Park Woman's Club. Soloists were: Esther Nelson, soprano; Isabel Zehr, contralto; Carlyle Bennett, tenor; William Russell, bass; and accompanists Helen Leefelt and Henry Jackson. [On this day Mr. Smith wrote a letter to Mrs. Clark accepting her invitation to speak before the Wilmette Garden Club. Mrs. Clark's invitation and Mr. Smith's response are transcribed as follows: - ed.]

Mr. Jesse Smith –  
Highland Park Schools –  
Dear Mr. Smith –

Several weeks ago I called on you in regard to taking our Garden Club for a trip to the Waukegan Flats on June 5<sup>th</sup>. This is a small reminder that you will meet us at one o'clock at any place you appoint and we shall then have the pleasure of your guidance for the afternoon –

At that time we also spoke of a short talk you would make on Wild Flower Conservation –

On Feb 11<sup>th</sup> – we have a joint meeting with the Woman's Club at the club at 10:30 in the morning. It would be very valuable to be there as you will reach many women with your message. Will you write me if you can give a short talk (15 min) at this time?

Thanking you for your kindness – I am

Sincerely yours –

*Marguerite Clark* –

### **Monday, December 29** To Springfield

Left at 10;15 on I C.R R., our Lake Shore group having a car on the special train otherwise  
occupied by the Chicago delegation

Arrived at 2:30. Called on R.B. Miller, state forester, and had a chat over several matters – the  
proposed Birds of Illinois, etc.

[Inserted at this page is a clipping from the program brochure for the Illinois State Teachers' Association  
meeting. – ed.]

### **Tuesday, December 30** At Springfield

Breakfast as one of fifty or more guests of Harry Wilson at the Leland.

At the morning session Mr Nygaard's committee report on a new pension plan came up & caused a  
great sensation. Big opposition seemed on the horizon. Its final consid. was deferred until tomorrow at  
9:00 A M to give members time to read over & think about the plan

G.E. Thompson & I took a half hour off during the aft to visit with Col. Whipp, supt of prisons.  
Talked frankly over situation at St Charles A humane & honorable gentleman

This evening our Lake Shore Div. Group had early dinner at the Leland & talked over the affairs of  
the Division Then we went to the evening session – which was quite flat.

### **Wednesday, December 31** The last night of the Year

About 7° above at 10:30 P.M

Attended first hour of the morning session. Our pension plan came up for action and for a time rather exciting debate took place. At length a motion prevailed to refer it to the legislative committee plus Mr Nygaard & Mr Blair (or some one from his office) and Mr Grimm to work into a bill if it seems feasible. This disposed of the matter for a time, and perhaps it was a wise move

I left then & spent nearly a half hour with Mrs Palmer, chief probation officer, - a very pleasant and profitable interview. Then to office of Highway Division where I had a very satisfactory interview with Mr L.H. Hendrick, Asst Eng. of Maintenance. - Then to our special car which left at 11:24 for Chic Home at 5:45.

[Mr. Smith made a notation regarding expenses for his automobile at the back of this diary. The notation is transcribed as follows: - ed.]
